INDEPENDENT AUDITOR'S REPORT

Board of Directors
Travis County Municipal Utility District No. 10
Travis County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Travis County Municipal Utility District No. 10 (the "District") as of and for the year ended February 29, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of February 29, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors
Travis County Municipal Utility District No. 10

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**TRAVIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 10
MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR YEAR ENDED FEBRUARY 29, 2024**

Management’s discussion and analysis of Travis County Municipal Utility District No. 10’s (the “District”) financial performance provides an overview of the District’s financial activities for the year ended February 29, 2024. Please read it in conjunction with the District’s financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District’s annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District’s overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all of the District’s assets, liabilities, and deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of Activities reports how the District’s net position changed during the current year. All current year revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has two governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

**TRAVIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 10
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR YEAR ENDED FEBRUARY 29, 2024**

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in the Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO THE FINANCIAL STATEMENTS

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI") and other supplementary information. The budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$1,462,521 as of February 29, 2024.

A portion of the District's net position reflects its net investment in capital assets (land and land improvements and water, wastewater and drainage facilities less any debt used to acquire those assets that is still outstanding). The District uses these assets to provide water and wastewater services.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR YEAR ENDED FEBRUARY 29, 2024**

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS

The District's combined fund balances as of February 29, 2024, were \$1,900,897, a decrease of \$74,564 from the prior year.

The General Fund fund balance decreased by \$113,400, primarily due to operating expenditures and capital outlay exceeding service and property tax revenues.

The Debt Service Fund fund balance increased by \$38,836, primarily due to the structure of the District's outstanding debt service requirements.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors annually adopts an unappropriated budget for the General Fund and did not amend the budget during the fiscal year. Actual revenues were \$127,296 more than budgeted revenues primarily due to higher than anticipated property tax revenues and investment earnings. Actual expenditures were \$17,421 more than budgeted expenditures due to higher than expected professional fees and repairs and maintenance costs, offset by lower than anticipated capital outlay. See budget to actual comparison.

CAPITAL ASSETS

Capital assets as of February 29, 2024, totaled \$7,074,674 (net of accumulated depreciation) and included land and land improvements and construction in progress as well as the water, wastewater and drainage systems. See also Note 8.

Capital Assets At Year-End, Net of Accumulated Depreciation

LONG-TERM DEBT ACTIVITY

At February 29, 2024, the District had total bond debt payable of \$4,710,000. The changes in the debt position of the District during the year ended February 29, 2024, are summarized as follows:

Bond Debt Payable, March 1, 2023	\$ 4,955,000
Less: Bond Principal Paid	<u>245,000</u>
Bond Debt Payable, February 29, 2024	<u>\$ 4,710,000</u>

The District does not have an underlying rating and the District's bonds do not carry an insured rating.

CURRENTLY KNOWN FACTS, DECISIONS OR CONDITIONS

The adopted budget for fiscal year 2025 projects a decrease in General Fund fund balance of \$545,875. Compared to the fiscal year 2024 budget, revenues are expected to increase by approximately \$65,600 and expenditures are expected to increase by approximately \$388,200.

Total Fund Balances - Governmental Funds \$ 1,900,897

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in the governmental funds. 7,074,674

Deferred inflows of resources related to property tax revenues for the 2022 and prior debt service tax levies and the 2023 and prior maintenance tax levies became part of recognized revenue in the governmental activities of the District. In addition, uncollected penalty and interest revenue became part of recognized revenue in the governmental activities of the District. 73,393

Interest paid in advance as part of a refunding bond sale is recorded as a deferred outflow in the governmental activities and systematically charged to interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter. 196,627

Certain liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. These liabilities at year end consist of:

Due to Developer	\$ (5,927,561)	
Accrued Interest Payable	(82,709)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED FEBRUARY 29, 2024**

Net Change in Fund Balances - Governmental Funds \$ (74,564)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report tax revenues when collected. However, in the Statement of Activities, revenue is recorded in the accounting period for which the taxes are levied. (18,772)

Governmental funds report penalty and interest revenue on property taxes when collected. However, in the Statement of Activities, revenue is recorded when penalties and interest are assessed. 5,352

Governmental funds do not account for depreciation. However, in the Statement of Net Position, capital assets are depreciated and depreciation expense is recorded in the Statement of Activities. (300,999)

Governmental funds report capital expenditures as expenditures in the period purchased. However, in the Statement of Net Position, capital assets are increased by new purchases and the Statement of Activities is not affected. 537,647

Governmental funds report bond principal payments as expenditures. However, in the Statement of Net Position, bond principal payments are reported as decreases in long-term liabilities. 245,000

Governmental funds report deferred charges on refunding bonds, bond premiums and bond discounts as other financing sources in the year paid and received. However, in the Statement of Net Position, deferred charges on refunding bonds, bond premiums and bond discounts are amortized over the life of the bonds and the current year amortized portion is recorded in the Statement of Activities. (20,332)

Governmental funds report interest expenditures on long-term debt as expenditures in the year paid. However, in the Statement of Net Position, interest is accrued on the long-term debt through fiscal year-end. 3,863

Change in Net Position - Governmental Activities \$ 377,195

TRAVIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 10
NOTES TO THE FINANCIAL STATEMENTS
FEBRUARY 29, 2024

NOTE 1. CREATION OF DISTRICT

Point Venture II Municipal Utility District, located in Travis County, Texas (the “District”), was created effective May 17, 1989, by an Order of the Texas Water Commission, now known as the Texas Commission on Environmental Quality (the “Commission”). On November 20, 1998, the District received approval from the Commission to change its name to Travis County Municipal Utility District No. 10. Pursuant to the provisions of Chapters 49 and 54 of the Texas Water Code, the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, wastewater service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct parks and recreational facilities for the residents of the District. The District is also empowered to contract for or employ its own peace officers with powers to make arrests and to establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The Board of Directors held its first meeting on June 9, 1989.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (the “GASB”). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. The GASB has established criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting (“GASB Codification”).

GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated to obtain net total revenues and expenses in the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

TRAVIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 10
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds

The District has two governmental funds and considers these funds to be major funds.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, costs and general expenditures.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both “measurable and available.” Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectable within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures. Recognition of revenues for the 2023 debt service tax levied in the current year has been deferred until the 2025 fiscal year.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgeting

An annual unappropriated budget is adopted for the General Fund by the District’s Board of Directors. The budget is prepared using the same method of accounting as for financial reporting. The original General Fund budget for the current year was not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their acquisition value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset. In accordance with GASB Statement No. 89, interest costs, including developer interest, are not capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost of \$10,000 or more and a useful life of at least two years. Depreciation is calculated on each class of depreciable property using no salvage value and the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Water System	10-45
Wastewater System	10-45
Drainage System	10-45

Service Accounts Receivable

The District provides for uncollectible service accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management’s evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. The District believes all accounts were collectible at February 29, 2024.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances. At February 29, 2024, the District had \$545,875 of assigned fund balance pertaining to the fiscal year 2025 budget deficit.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are considered to be wages subject to federal income tax withholding for payroll purposes only.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

	\$ 4,710,000	\$ 1,422,812	\$ 6,132,812

As of February 29, 2024, the District had authorized but unissued bonds in the amount of \$13,660,000 for utility facilities and \$12,610,000 for refunding bonds.

The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount, and are further payable from and secured by a lien on and pledge of the net revenues to be received from the operation of the District's waterworks and wastewater system.

TRAVIS COUNTY MUNICIPAL UTILITY DISTRICT NO. 10
NOTES TO THE FINANCIAL STATEMENTS
FEBRUARY 29, 2024

NOTE 3. LONG-TERM DEBT (Continued)

During the year ended February 29, 2024, the District levied an ad valorem debt service tax rate of \$0.19 per \$100 of assessed valuation, which resulted in a tax levy of \$424,232 on the adjusted taxable valuation of \$223,279,873 for the 2023 tax year. The bond resolutions require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 9 for maintenance tax levy.

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 4. SIGNIFICANT BOND RESOLUTION AND LEGAL REQUIREMENTS

The bond resolutions state that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data with respect to the District to the state information depository. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year end, the carrying amount of the District's deposits was \$924,144 and the bank balance was \$1,033,557. Of the bank balance, \$838,422 was covered by federal depository insurance and the remaining balance was covered by collateral pledged in the name of the District and held by a third-party depository.

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Deposits (Continued)

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at February 29, 2024, as listed below:

	Cash	Certificates of Deposit	Total
GENERAL FUND	\$ 283,842	\$ 230,000	\$ 513,842
DEBT SERVICE FUND	410,302		410,302
TOTAL DEPOSITS	\$ 694,144	\$ 230,000	\$ 924,144

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District’s financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District’s investments must be made “with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.” No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District’s investment policy may be more restrictive than the Public Funds Investment Act.

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Hermes, Inc. manages the daily operations of the pool under a contract with the Comptroller. TexPool measures all of their portfolio assets at amortized cost. As a result, the District also measures its investments in TexPool at amortized cost for financial reporting purposes. There are no limitations or restrictions on withdrawals from TexPool.

Certificates of deposit are recorded at acquisition cost.

As of February 29, 2024, the District had the following investments and maturities.

Fund and Investment Type	Fair Value	Maturities in Years			
		Less Than 1	1-5	6-10	More Than 10
<u>GENERAL FUND</u>					
Texpool	\$ 1,262,261	\$ 1,262,261	\$	\$	\$
Certificates of Deposit	230,000	230,000			
<u>DEBT SERVICE FUND</u>					
Texpool	422,153	422,153			
TOTAL INVESTMENTS	<u>\$ 1,914,414</u>	<u>\$ 1,914,414</u>	<u>\$ - 0 -</u>	<u>\$ - 0 -</u>	<u>\$ - 0 -</u>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At February 29, 2024, the District’s investment in TexPool was rated “AAAm” by Standard and Poor’s. The District also manages credit risk by typically investing in certificates of deposit with balances below FDIC coverage.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District also manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

Restrictions

All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes.

NOTE 9. MAINTENANCE TAX

On August 12, 1989, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$1.00 per \$100 of assessed valuation of taxable property within the District. During the year ended February 29, 2024, the District levied an ad valorem maintenance tax rate of \$0.48 per \$100 of assessed valuation, which resulted in a tax levy of \$1,071,743 on the adjusted taxable valuation of \$223,279,873 for the 2023 tax year. The maintenance tax is to be used by the General Fund to pay expenditures of operating the District’s waterworks and sanitary sewer system.

NOTE 10. DUE TO DEVELOPERS AND UNREIMBURSED COSTS

The District has entered into development financing agreements whereby the District’s developers agreed to fund costs associated with water, wastewater and drainage facilities, utilities construction and operating advances until such time as the District can sell bonds. As of February 29, 2024, it was estimated that the developers have advanced \$5,927,561 on behalf of the District in connection with water, wastewater and drainage facilities to serve the District. These costs are to be funded from a future bond issue and are subject to regulatory approvals prior to the sale of bonds.

The following is a summary of transactions regarding the changes in developer advances for the year ended February 29, 2024:

Due to Developer, beginning of year	\$	5,927,561
Current Year Additions		-
Current Year Reimbursements		-
Due to Developer, end of year	\$	<u>5,927,561</u>

NOTE 11. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced fiscal insurance coverage or had settlements which exceeded coverage amounts for the past three fiscal years.

NOTE 12. WATER SUPPLY CONTRACT

The District has entered into a contract with the Lower Colorado River Authority (“LCRA”) for the right to divert up to 17.921 million gallons (the maximum annual quantity) of raw water per annum from the Colorado River/Lake Travis in Travis County, Texas. This contract has been null and void. On May 1, 2012 the District entered into a contract with the LCRA for the right to a maximum diversion as stated in the contract. The term of this contract is 40 years.

On a monthly basis, the District agrees to pay an amount equal to the water rate determined by the Board of Directors of LCRA to then be in effect for all sales of water for municipal purposes times the amount of water diverted during the previous month. Also on a monthly basis, the District agrees to pay a monthly reservation charge, which is equal to the reservation rate determined by the Board of Directors of the LCRA multiplied by one-twelfth of the maximum annual quantity of raw water diverted from the Colorado River/Lake Travis. In addition, the District agrees to pay, on a calendar basis, an amount equal to the rate determined by the Board of Directors of LCRA, to then be in effect for diversion of water in amounts in excess of the maximum annual quantity. During the current year, the District recorded expenditures of \$16,179 related to this agreement.
